### User Stories

I need an app that provides quick and intuitive access to recipes across the globe

I don't have much time for cooking in the week, so I need to understand time taken to cook quality meals

Some of my friends are worried about calory content in their food. I need to understand calory content per recipe serving

I'd like to upload new recipes and contribute to existing recipes, to share my love and passion for good, wholesome eating

I want to remove unwanted recipes from my collection

### Key:
Nouns = Entities
Adjectives = Attributes
Verbs = Relationships

**Conversion Model - User story > Conceptual Data Model:**
